C. H. S. STUDENTS GIVE \$10,000 FOR WAR

Canvass Of Liberty Bonds Held
In Name Of Students Shows
Their Patriotic Zeal

BEHIND THE WAR WITH CASH

That Clearfield High School pupils were highly and intensely patriotic was concretely demonstrated last April where war was declared to exist between the United States and Germany by the exceptionally large number of students who heard their country's call and very promptly volunteered their services to Uncle Sam.

That those who remained at their studies were as patriotically inclined as those who offered their very lives if necessary in defense of their country, has since been demonstrated by the manner in which the boys and girls at home have since been engaged in keeping the "home fires burning." No patriotic movement of any description can get by the high school pupils without their most enthusiastic interest and support; they promptly get behind every win the war campaign regardless of its nature and the entire community is intensely proud of the record our high school boys and girls have made and are making daily.

It has been said that you can measure a man's patriotism by the extent to which he will go down into his pocket to support his country at war. If this is a fair test, it serves to prove all the good things we have attempted to say regarding our high school. A canvass was made of the students yesterday to ascertain just how much money they had invested in the different war funds and here is the startling figures.

High School students possess in their own names \$7650 in Liberty Bonds; \$1010 in War Savings Stamps and \$115 in Thrift Stamps. When you take these figures into consideration and add to them the amount of voluntary contributions to the Red Cross Y. M. C. A. and K. of C. camp funds you will realize that our high school students are not content with "doing their bit" but are doing a whole lot more proud of the opportunity for such service. More power to them.

AGED LADY THOUGHT POVERTY STRICKEN HAD \$40,000 HID

Pittsburgh, March 9.—With the appointment of the Fidelity Title & Trust Co. as temporary guardian for Miss Eliza Jane Maffett it was learned today that R. J. Wilson, her nephew, found \$40,000 in the old Maffett mansion in Duquesne Way.

Miss Maffett who is aged 90 years was found overcome with gas fumes early last month. Persons believed she had been this long time living in "respectable poverty" and she was removed to the hospital where she has been ever since. While going through the library yesterday her nephew picked up an old book in which he found several hundred dollar bills. A search revealed other hiding places. The house has been vacant for more than a month.

FIREMEN'S RELIEF FUND

Borough Treasurer Whiteman received a check for \$410 today the amount of the borough's share of one-half of the two per cent. tax charged foreign insurance companies for doing business in Pennsylvania. This money goes to the Firemen's Relief Fund under a wise Pennsylvania statute. The local firemen's Relief fund now totals something over \$7,000, all of which is invested in interest-bearing bonds. The fund provided for the relief of volunteer firemen injured in line of duty.

EXPERTS PLAN NOW TO RAISE THE LUSITANIA

Great Submarine Engineering
Men Expect To Recover Mill-
ions From Deep Blue Sea

PRECIOUS METALS IN WATER

(By United Press)
London, Feb. 15. (By Mail.)—The Lusitania may yet carry American troops to France to beat the Germans. Salvage experts are now working on the problem of raising her from the 300 feet of water she lies in off the Old Head of Kinsale. At all events an attempt will be made to recover the treasure from the strong room on one of the upper decks. The possibility of beaching the vessel on the Irish coast is also being considered.

Some of the keenest engineering minds of Great Britain are devising plans and means of raising torpedoed ships after the war. Many of the submerged ships lying on the ocean floor in the "graveyard of the Atlantic" off Ireland are in water shallow enough to make the project feasible.

In addition to the value of the ships vast fortunes in metals and imperishable cargoes are resting in the holds of the wrecks.

"Salvage companies are laying plans for raising both ships and cargoes on a big scale," said R. H. Davis, managing director of one of the largest submarine engineering corporations in the world. "Cargoes to the value of millions of dollars are awaiting recovery. Apart from the silver and bullion in sunken ships, there is a huge quantity of other metals."

"In many cases where ships cannot be raised, the cargoes can be salvaged. We recovered \$350,000 in Spanish gold from the Alphonso XII some years ago. She was lying 165 feet under the sea. We also recovered a large quantity of silver bars from the steamer Skjov off Cape Finisterre in 186 feet of water. This shows what can be done after the war."

Owing to the scarcity of tonnage after the war, every ship that can float will be worth a fortune. The salvage companies expect to raise many of the lesser damaged vessels with little trouble and put them into commission shortly after the war is ended.

SUFFERED BROKEN SHOULDER

Robert Leavy is a patient in the Clearfield hospital suffering from a fractured shoulder and collar bone as the result of an accident which befell him yesterday afternoon about 4 o'clock. At that time Robert was driving the dead wagon down Third street and opposite Thorne's plumbing shop, a spring broke and he was thrown from the high seat to the brick street. He gathered himself up and was assisted to the office of Dr. Waterworth and then taken from there to the hospital.

An x-ray picture disclosed the extent of his injuries and the fractures were promptly reduced. He is now resting as comfortably as the circumstances will permit.

PARIS SUFFERS AIR RAID

Paris, March 9.—Paris was bombarded by the enemy last night and there were some victims, the war office announced today.

Berlin via London, March 9.—"We attacked Paris last night with great effect in reprisal for the enemy bombardment of the open towns of Trier, Mannheim and Wiesbaden," the German war office announced today.

MISS AGNES WEAVER A NOONDAY BRIDE

Another of the interesting marriages of the season, occurred today at one o'clock, at the home of Mrs. Paul F. Weaver on South Second street when her daughter Miss Agnes E. Weaver became the bride of James Mitchell Jr., son of Mr. and Mrs. James Mitchell of Walnut street.

To the strains of Lohengrin's wedding march played by Mrs. C. A. Puffinburger of Wilkesburg formerly Miss Emily Potter the bridal couple descended the stairs to the living room where the ceremony was performed by the Rev. D. E. C. Reeve in the presence of only the immediate families and a few intimate friends of the bride and groom, the Henry Van Dyke ceremony being used. The bride was given in marriage by her mother. The only attendant was little Miss Helen Weaver, cousin of the bride who acted as flower girl and wore a dainty white lingerie dress and carried a basket of pink sweet peas.

The bride was married in her traveling suit of dark blue gaberdine, with a very attractive hat to match and wore a corsage of orchids, sweet peas and hyacinths.

Immediately after the ceremony the wedding breakfast was served. Mr. and Mrs. Mitchell then left on the afternoon train for a wedding trip to Eastern cities which will include Philadelphia, New York and Washington.

They were the recipients of many beautiful and costly gifts.

The bride is a charming and accomplished member of the younger social set and the groom who is a graduate of the Wharton school of the University of Pennsylvania holds the position as assistant teller of the Clearfield National Bank.

The out of town guests were: Miss Natalie York of New York; Mrs. C. A. Puffinburger of Wilkesburg; Mr. and Mrs. John A. Mitchell of Ridley Park; and Mrs. Walter Sohn of Harrisburg.

BILLIARD CHAMPION TO VISIT HEALY BILLIARD PARLOR

Considerable enthusiasm is being aroused over the coming billiard match which will be staged at the Healy Pool Parlor on Market street. A telegram was received yesterday from the booking agency that arranges the matches that Hoppe, the world's champion billiard player and his playing partner Peterson, would be able to stop off in our city for a match game.

Followers of the cushion game will readily remember that Hoppe has many times successfully defended the title against all comers for every style of billiard game that is in existence. Peterson, his playing partner is a wizard with the cue and a wonderful exhibit is promised.

Mr. Healy this morning gave the Progress man some interesting information relative to Hoppe. Hoppe's billiard hand is always insured for \$100,000 against loss of the use or permanent disability. Hoppe's earnings are enormous running from \$30,000 to \$50,000 yearly and it is by mere chance that Clearfield followers of the cushion she will have an opportunity to see this wonderful player manipulate the ivorys.

The Healy pool room will be so arranged that there will be seating capacity for about 40 with a clear view of the table.

Unless present arrangements are unavoidably altered the match will be staged on March 18th.

B. C. YOUNGMAN HONOR GUEST AT CLASS BANQUET

Professor B. C. Youngman reached the seventy-eighth milestone of his useful life yesterday and with it came another testimonial banquet from his Bible students and friends. They, to the number of fifty, gathered to do him honor in the luncheon room of the Presbyterian Church last evening at six thirty and after an excellent dinner, prepared by the ladies of the church, several five minute speeches were made. John W. Urey acted as toastmaster and kept the spirit of good humor flowing by the telling of a number of humorous stories and experiences. Senator McQueen, Capt. Guernsey Smith, Hon. W. I. Swoope and Dr. J. Paul Frantz responded to the call of the toastmaster, each paying beautiful tributes to the honored guest of the evening. This speaking was supplemented by a talk by Rev. E. C. Reeves who described Mr. Youngman as one of God's men. Professor Youngman accepted the good wishes and congratulations of his friends and co-workers in his inimitable style and we believe every citizen of Clearfield rejoices with Mr. Youngman that he has been spared to spend the evening of his life in full enjoyment. As he expressed it, "he has gone over the top with eight years to boot."

ROUMANIAN BOAT SUNK BY GERMANS

Copenhagen, March 9.—The Germans have sunk a Roumanian transport near the Aland Islands according to information received here today. The transport is reported to have fought but unsuccessfully.

The Aland Islands lie between Sweden and Finland at the entrance of the old of Bothnia and were taken from Sweden by Russia in 1805 and were inhabited chiefly by Swedes. German forces occupied the Islands recently. The presence of Russian troops in that vicinity may indicate an attempt of the Bolshevik government to retake the islands. If the troops went down it is probable there was a heavy loss of life.

ROUMANIA REJECTS GERMAN PEACE PLEA

London, March 9.—Roumania has broken off peace negotiations with Germany but has "concluded peace with Russia" according to the Petrograd official wireless received today. Peace has been concluded at Odessa between Russia and Roumania the wireless said. The latter will evacuate Bessarabia which will be occupied by the Russians. "Roumania refuses to accept the German peace conditions and negotiations were broken off. Roumania however is believed to be in danger of capitulation."

NEW CLASSIFICATION FOR SELECTIVES

Washington, March 7.—Reclassification according to physical condition of the men called in the next Army draft is provided in revised instruction for medical advisory boards which are being sent to the local boards throughout the country. The new regulations, made public tonight, require that every man summoned before the board shall be placed in one of the following four classes:

(A) Acceptable for general military service; (B) Acceptable for general military service after being cured of remedial defect. (C) Acceptable for special or limited military service in a specified capacity or occupation. (D) Rejected and exempted from any military service.

It is the intention of the provost marshal general to provide later for the further investigation and classification of the men acceptable for limited or special service so that record may be made of the sort of work each of these men may be assigned to do without endangering his health.

Under the new regulations many ailments and defects which gained exemption of drafted men in the past now will result only in their being listed in Group B. Such men, if they choose, will be given the privilege of securing the services of their family physicians in the effort to remove the defect, but if they have not availed themselves of this privilege within a specified time they will be called into military service and ordered to a cantonment base hospital, a reconstruction hospital or to a civic hospital, as may be designated by the surgeon general.

SPANISH CABINET RESIGNS

Madrid, March 9.—King Alfonso has accepted the resignation of his cabinet. It is possible according to rumors that the dictatorship of the country will be formed under La Cierva, former minister of war.

BRITISH REPULSE HEAVY ATTACKS

London, March 9.—British troops repulsed a German attack east of Ypres on a front of nearly a mile. Field Marshal Haig reported today. Not even at a point did the Germans penetrate the British lines. A counter attack drove them off again last night. This is the second heavy German attack in the vicinity of Ypres in one day. Friday morning before dawn according to last night's official statement the Teutons attacked on a front of more than a mile. They gained a foothold of a 500 yard frontage only to be forced back by a counter attack. Last night's attack was only five miles south of the previous thrust. It was on a front about three miles east of Ypres.

ESTIMABLE BIGLER LADY DIES

Miss Catherine Pierce, aged 76 years, died at the home of Harry Ward, at Clearfield, the body being taken to Bigler, where she was born and raised, and buried on Thursday, March 7, 1918 from the Presbyterian church at Bigler. She is survived by one brother, Jacob, who resides in the East End, Clearfield. The deceased is a daughter of Jacob Pierce, one of the pioneer residents of Bradford township.

WAR DEPARTMENT WITHHOLDING LIST OF CASUALTIES

Washington, March 9.—Under the military man plea of "informing the enemy the nation today is barred from news as to the casualties other than that John Smith, Tom Brown and so on were killed or wounded."

The Committee on Public Information and the war department were deadlocked over the matter. The Committee took the firm stand that the casualty list without the emergency address would be useless as public information and that they would not hamper them. The newspapers and the public are to hereafter deal with the war department on the matter but to noon today no arrangements had been made for departmental publication of even a list of names. Hence, today's casualties are all piling up without publication while the committee has frankly told the military men that their policy of concealment does not in reality conceal.

The Jersey Shore High School basketball team were the victims of a slaughter at the local High School gym last evening. The down-river boys were outclassed from the jump-off and the result was never in doubt. They were able to score but four baskets from the floor during the game.

The locals toyed with the visitors during the first half and easily ran up a total of 25 points to 10 for the visitors. The second half was also quite tame, the final result being 40 to 19.

RUB RHEUMATISM PAIN RIGHT OUT
Instant relief from nerve torture and misery with old "St. Jacobs Liniment"
Get a small trial bottle: Rub this soothing, penetrating liniment right into the sore, inflamed nerves, and like magic—rheumatism disappears. "St. Jacobs Liniment" conquers pain. It is a harmless, non-drowsy relief which doesn't burn or discolor the skin.
Don't Suffer! It's so needless. Get a small trial bottle from any drug store and gently rub the "aching nerves" and in just a moment you will be absolutely free from pain, ache and suffering, but what will you more is, that the misery will not come back.
No difference whether your pain or neuralgia miseries is in the face, head or any part of the body, you get instant relief and without injury.

PERSHING'S NEWEST MOVE IS PUZZLING TO VON HINDENBERG

By J. W. T. Mason
Written for the United Press
New York, March 9.—Still greater confusion at German headquarters concerning the main disposition of Gen. Pershing's forces will result from the statement that Americans have taken over a new section of the Lorraine front.

The principal meaning of the announcement is that General Pershing has changed the direction of his troop movements. From the time the Germans first discovered American troops in the trenches near the Rhine-Marne canal, every successive revelation of the American positions has been toward the west.

The first discovery of the stars and stripes by the Germans was almost at the extreme western point of the French front, where it joins the British.

Now, however, General Pershing jumped back to the eastern end of the line in Lorraine. Von Hindenburg's uncertainty as to the point of the forthcoming American offensive is, for the present, hopelessly entangled by this policy of dodging about. From Chavignon, the westernmost point known to have been occupied by American troops, to Lorraine, is over 100 miles. There are at least ten possible areas along that line where the American offensive might be concentrated. It is Von Hindenburg's turn to guess.

Germany's enforcement of a conqueror's peace upon Rumania shows that the German militarists are trying to make not only Rumania, but also Bulgaria, subservient to German control. There are strong indications that Bulgaria is not to receive from Rumania that part of Bulgarian territory seized by the Rumanians during the last Balkan war.

The district will probably be made over to Germany instead of Bulgaria. Thus, if the Bulgars eventually receive the Dobruja, they will have the gift from Germany. By this shrewd trick the Germans hope to bind Bulgaria still closer to them, for the furtherance of their Mitteleuropa policy.

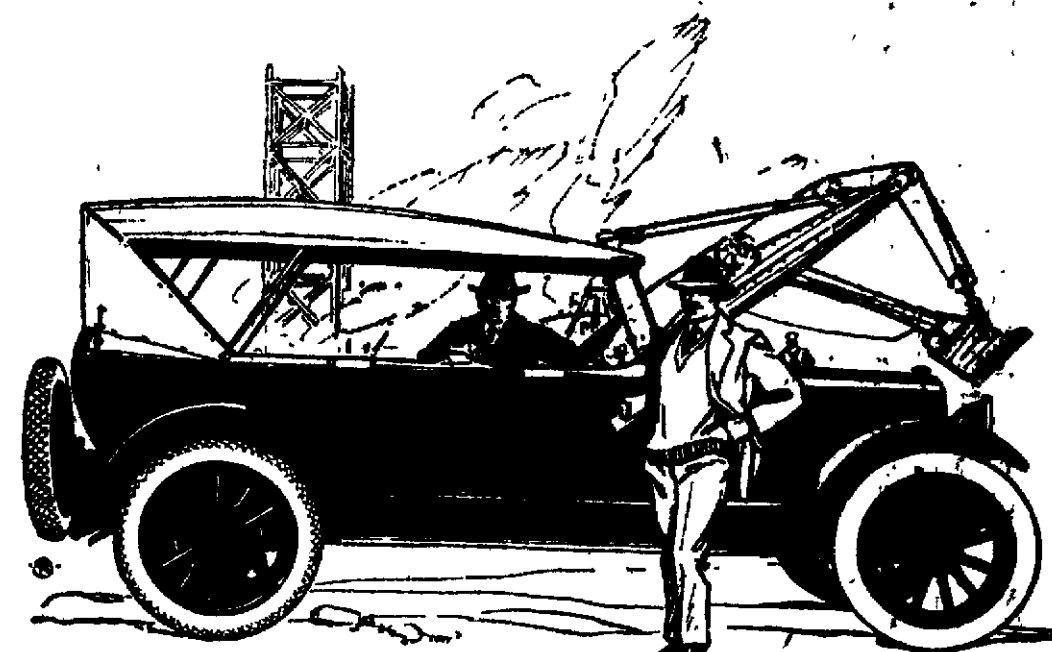

Likely as not Jess Willard will be ready to fight just about the time the circus season opens. Then he will be too busy to train.

PAIGE
The Most Beautiful Car in America
MOTOR CARS this year will be—and should be—bought carefully, intelligently—as a well considered investment. Never have motor cars been more widely and genuinely needed. And never have they been selected with such discrimination and understanding of their real worth and character.
Every man must "wake up and speed up" if the war is to be won. This is the economic hour of the motor car. It must serve as a utility. Therefore it will be bought as a utility—selected for its sound mechanical excellence, its reputation for good service and economical maintenance and for the name of the Company that builds and sells it.
It is in that spirit, to serve that end that the Paige Essex "Six-55" is being bought, not merely by patriotic Americans, but by the efficient and discriminating Americans who recognize in this car the best value, the best service and the best ally of their own efficiency.

C. H. S. STUDENTS GIVE \$10,000 FOR WAR

Canvass Of Liberty Bonds Held
In Name Of Students Shows
Their Patriotic Zeal

BEHIND THE WAR WITH CASH

That Clearfield High School pupils were highly and intensely patriotic was concretely demonstrated last April where war was declared to exist between the United States and Germany by the exceptionally large number of students who heard their country's call and very promptly volunteered their services to Uncle Sam.

That those who remained at their studies were as patriotically inclined as those who offered their very lives if necessary in defense of their country, has since been demonstrated by the manner in which the boys and girls at home have since been engaged in keeping the "home fires burning." No patriotic movement of any description can get by the high school pupils without their most enthusiastic interest and support; they promptly get behind every win the war campaign regardless of its nature and the entire community is intensely proud of the record our high school boys and girls have made and are making daily.

It has been said that you can measure a man's patriotism by the extent to which he will go down into his pocket to support his country at war. If this is a fair test, it serves to prove all the good things we have attempted to say regarding our high school. A canvass was made of the students yesterday to ascertain just how much money they had invested in the different war funds and here is the startling figures.

High School students possess in their own names \$7650 in Liberty Bonds; \$1010 in War Savings Stamps and \$115 in Thrift Stamps. When you take these figures into consideration and add to them the amount of voluntary contributions to the Red Cross Y. M. C. A. and K. of C. camp funds you will realize that our high school students are not content with "doing their bit" but are doing a whole lot more proud of the opportunity for such service. More power to them.

AGED LADY THOUGHT POVERTY STRICKEN HAD \$40,000 HID

Pittsburgh, March 9.—With the appointment of the Fidelity Title & Trust Co. as temporary guardian for Miss Eliza Jane Maffett it was learned today that R. J. Wilson, her nephew, found \$40,000 in the old Maffett mansion in Duquesne Way.

Miss Maffett who is aged 90 years was found overcome with gas fumes early last month. Persons believed she had been this long time living in "respectable poverty" and she was removed to the hospital where she has been ever since. While going through the library yesterday her nephew picked up an old book in which he found several hundred dollar bills. A search revealed other hiding places. The house has been vacant for more than a month.

FIREMEN'S RELIEF FUND

Borough Treasurer Whiteman received a check for \$410 today the amount of the borough's share of one-half of the two per cent. tax charged foreign insurance companies for doing business in Pennsylvania. This money goes to the Firemen's Relief Fund under a wise Pennsylvania statute. The local firemen's Relief fund now totals something over \$7,000, all of which is invested in interest-bearing bonds. The fund provided for the relief of volunteer firemen injured in line of duty.

EXPERTS PLAN NOW TO RAISE THE LUSITANIA

Great Submarine Engineering
Men Expect To Recover Mill-
ions From Deep Blue Sea

PRECIOUS METALS IN WATER

(By United Press)
London, Feb. 15. (By Mail.)—The Lusitania may yet carry American troops to France to beat the Germans. Salvage experts are now working on the problem of raising her from the 300 feet of water she lies in off the Old Head of Kinsale. At all events an attempt will be made to recover the treasure from the strong room on one of the upper decks. The possibility of beaching the vessel on the Irish coast is also being considered.

Some of the keenest engineering minds of Great Britain are devising plans and means of raising torpedoed ships after the war. Many of the submerged ships lying on the ocean floor in the "graveyard of the Atlantic" off Ireland are in water shallow enough to make the project feasible.

In addition to the value of the ships vast fortunes in metals and imperishable cargoes are resting in the holds of the wrecks.

"Salvage companies are laying plans for raising both ships and cargoes on a big scale," said R. H. Davis, managing director of one of the largest submarine engineering corporations in the world. "Cargoes to the value of millions of dollars are awaiting recovery. Apart from the silver and bullion in sunken ships, there is a huge quantity of other metals."

"In many cases where ships cannot be raised, the cargoes can be salvaged. We recovered \$350,000 in Spanish gold from the Alphonso XII some years ago. She was lying 165 feet under the sea. We also recovered a large quantity of silver bars from the steamer Skjov off Cape Finisterre in 186 feet of water. This shows what can be done after the war."

Owing to the scarcity of tonnage after the war, every ship that can float will be worth a fortune. The salvage companies expect to raise many of the lesser damaged vessels with little trouble and put them into commission shortly after the war is ended.

SUFFERED BROKEN SHOULDER

Robert Leavy is a patient in the Clearfield hospital suffering from a fractured shoulder and collar bone as the result of an accident which befell him yesterday afternoon about 4 o'clock. At that time Robert was driving the dead wagon down Third street and opposite Thorne's plumbing shop, a spring broke and he was thrown from the high seat to the brick street. He gathered himself up and was assisted to the office of Dr. Waterworth and then taken from there to the hospital.

An x-ray picture disclosed the extent of his injuries and the fractures were promptly reduced. He is now resting as comfortably as the circumstances will permit.

PARIS SUFFERS AIR RAID

Paris, March 9.—Paris was bombarded by the enemy last night and there were some victims, the war office announced today.

Berlin via London, March 9.—"We attacked Paris last night with great effect in reprisal for the enemy bombardment of the open towns of Trier, Mannheim and Pirmasens." The German war office announced today.

MISS AGNES WEAVER A NOONDAY BRIDE

Another of the interesting marriages of the season, occurred today at one o'clock, at the home of Mrs. Paul F. Weaver on South Second street when her daughter Miss Agnes E. Weaver became the bride of James Mitchell Jr., son of Mr. and Mrs. James Mitchell of Walnut street.

To the strains of Lohengrin's wedding march played by Mrs. C. A. Puffinburger of Wilkesburg formerly Miss Emily Potter the bridal couple descended the stairs to the living room where the ceremony was performed by the Rev. D. E. C. Reeve in the presence of only the immediate families and a few intimate friends of the bride and groom, the Henry Van Dyke ceremony being used. The bride was given in marriage by her mother. The only attendant was little Miss Helen Weaver, cousin of the bride who acted as flower girl and wore a dainty white lingerie dress and carried a basket of pink sweet peas.

The bride was married in her traveling suit of dark blue gaberdine, with a very attractive hat to match and wore a corsage of orchids, sweet peas and hyacinths.

Immediately after the ceremony the wedding breakfast was served. Mr. and Mrs. Mitchell then left on the afternoon train for a wedding trip to Eastern cities which will include Philadelphia, New York and Washington.

They were the recipients of many beautiful and costly gifts.

The bride is a charming and accomplished member of the younger social set and the groom who is a graduate of the Wharton school of the University of Pennsylvania holds the position as assistant teller of the Clearfield National Bank.

The out of town guests were: Miss Natalie York of New York; Mrs. C. A. Puffinburger of Wilkesburg; Mr. and Mrs. John A. Mitchell of Ridley Park; and Mrs. Walter Sohn of Harrisburg.

BILLIARD CHAMPION TO VISIT HEALY BILLIARD PARLOR

Considerable enthusiasm is being aroused over the coming billiard match which will be staged at the Healy Pool Parlor on Market street. A telegram was received yesterday from the booking agency that arranges the matches that Hoppe, the world's champion billiard player and his playing partner Peterson, would be able to stop off in our city for a match game.

Followers of the cushion game will readily remember that Hoppe has many times successfully defended the title against all comers for every style of billiard game that is in existence. Peterson, his playing partner is a wizard with the cue and a wonderful exhibit is promised.

Mr. Healy this morning gave the Progress man some interesting information relative to Hoppe. Hoppe's billiard hand is always insured for \$100,000 against loss of the use or permanent disability. Hoppe's earnings are enormous running from \$30,000 to \$50,000 yearly and it is by mere chance that Clearfield followers of the cushion she will have an opportunity to see this wonderful player manipulate the ivorys.

The Healy pool room will be so arranged that there will be seating capacity for about 40 with a clear view of the table.

Unless present arrangements are unavoidably altered the match will be staged on March 18th.

SHAPLAN'S CABLES

B. C. YOUNGMAN HONOR GUEST AT CLASS BANQUET

Professor B. C. Youngman reached the seventy-eighth milestone of his useful life yesterday and with it came another testimonial banquet from his Bible students and friends. They, to the number of fifty, gathered to do him honor in the luncheon room of the Presbyterian Church last evening at six thirty and after an excellent dinner, prepared by the ladies of the church, several five minute speeches were made. John W. Urey acted as toastmaster and kept the spirit of good humor flowing by the telling of a number of humorous stories and experiences. Senator McQueen, Capt. Guernsey Smith, Hon. W. I. Swoope and Dr. J. Paul Frantz responded to the call of the toastmaster, each paying beautiful tributes to the honored guest of the evening. This speaking was supplemented by a talk by Rev. E. C. Reeves who described Mr. Youngman as one of God's men. Professor Youngman accepted the good wishes and congratulations of his friends and co-workers in his inimitable style and we believe every citizen of Clearfield rejoices with Mr. Youngman that he has been spared to spend the evening of his life in full enjoyment. As he expressed it, "he has gone over the top with eight years to boot."

SPANISH CABINET RESIGNS

Madrid, March 9.—King Alfonso has accepted the resignation of his cabinet. It is possible according to rumors that the dictatorship of the country will be formed under La Cierva, former minister of war.

ROUMANIAN BOAT SUNK BY GERMANS

Copenhagen, March 9.—The Germans have sunk a Roumanian transport near the Aland Islands according to information received here today. The transport is reported to have fought but unsuccessfully.

The Aland Islands lie between Sweden and Finland at the entrance of the old of Bothnia and were taken from Sweden by Russia in 1805 and were inhabited chiefly by Swedes. German forces occupied the Islands recently. The presence of Russian troops in that vicinity may indicate an attempt of the Bolshevik government to retake the islands. If the troops went down it is probable there was a heavy loss of life.

ROUMANIA REJECTS GERMAN PEACE PLEA

London, March 9.—Roumania has broken off peace negotiations with Germany but has "concluded peace with Russia" according to the Petrograd official wireless received today. Peace has been concluded at Odessa between Russia and Roumania the wireless said. The latter will evacuate Bessarabia which will be occupied by the Russians. "Roumania refuses to accept the German peace conditions and negotiations were broken off. Roumania however is believed to be in danger of capitulation."

NEW CLASSIFICATION FOR SELECTIVES

Washington, March 7.—Reclassification according to physical condition of the men called in the next Army draft is provided in revised instruction for medical advisory boards which are being sent to the local boards throughout the country. The new regulations, made public tonight, require that every man summoned before the board shall be placed in one of the following four classes:

(A) Acceptable for general military service; (B) Acceptable for general military service after being cured of remedial defect. (C) Acceptable for special or limited military service in a specified capacity or occupation. (D) Rejected and exempted from any military service.

It is the intention of the provost marshal general to provide later for the further investigation and classification of the men acceptable for limited or special service so that record may be made of the sort of work each of these men may be assigned to do without endangering his health.

Under the new regulations many ailments and defects which gained exemption of drafted men in the past now will result only in their being listed in Group B. Such men, if they choose, will be given the privilege of securing the services of their family physicians in the effort to remove the defect, but if they have not availed themselves of this privilege within a specified time they will be called into military service and ordered to a cantonment base hospital, a reconstruction hospital or to a civic hospital, as may be designated by the surgeon general.

BRITISH REPULSE HEAVY ATTACKS

London, March 9.—British troops repulsed a German attack east of Ypres on a front of nearly a mile. Field Marshal Haig reported today. Not even at a point did the Germans penetrate the British lines. A counter attack drove them off again last night. This is the second heavy German attack in the vicinity of Ypres in one day. Friday morning before dawn according to last night's official statement the Germans attacked on a front of more than a mile. They gained a foothold of a 500 yard frontage only to be forced back by a counter attack. Last night's attack was only five miles south of the previous thrust. It was on a front about three miles east of Ypres.

WERE VERY EASY PICKING

The Jersey Shore High School basketball team were the victims of a slaughter at the local High School gym last evening. The down-river boys were outclassed from the jump-off and the result was never in doubt. They were able to score but four baskets from the floor during the game.

The locals toyed with the visitors during the first half and easily ran up a total of 25 points to 10 for the visitors. The second half was also quite tame, the final result being 40 to 19.

Following was the line-up:
Jersey Shore F. Pooler
Troibles F. Fulton
Sinex C. Robison
Barker G. Butler
Carpenter G. Dowler
Crazier F.

WAR DEPARTMENT WITHHOLDING LIST OF CASUALTIES

By Carl D. Groat

Washington, March 9.—Under the military man plea of "informing the enemy the nation today is barred from news as to the casualties other than that John Smith, Tom Brown and so on were killed or wounded."

The Committee on Public Information and the war department were dead-locked over the matter. The Committee took the firm stand that the casualty list without the emergency address would be useless as public information and that they would not hamper them. The newspapers and the public are to hereafter deal with the war department on the matter but to noon today no arrangements had been made for departmental publication of even a list of names. Hence, today's casualties are all piling up without publication while the committee has frankly told the military men that their policy of concealment does not in reality conceal.

With the American Army in France, March 8.—The Germans are straining the American troops who have been switched from the American front to the sector near the Swiss border.

A heavy artillery demonstration by the Boche which has been going on for three days reached the zenith of its violence today and tonight. The American troops morale is the best despite the bombardment. A party of 30 men this afternoon were shelled in a dug out upon which a shell made a square hit. They sought shelter in another dug out but the latter was also demolished. As the shelling of the American positions continued throughout the day relief troops were unable to reach the front trenches.

Two men of the signal corps distinguished themselves by keeping communications despite the heavy shell fire. Telephone wires repeatedly were broken but they continued to work. A shell hit a wire held in the hands of one of the men. When the shelling finally ceased the repairs were completed.

The artillery action on this front was three or four times as heavy as that on the American sector during the hottest period there. The troops here relieved a crack French corps. The Boche began straining the American as soon as they were certain the Sammies were in this sector. The violence of the artillery is steadily increasing.

BEEF PACKERS WIN

Chicago, March 9.—The beef packers won their fight here to prevent the Federal Trade commission's seizure of books from the vault of Henry Vecker, Swift's attorney. The United States court of appeals reversed the decision of Federal Judge Landis and declared the search and seizure war-parts quashed.

CLEARFIELD TO HAVE SERIES OF HOME ECONOMICS

Arrangements have been made with the Home Economics Extension Department at State College to send one of their representatives to Clearfield to give a series of educational meetings relating to food and clothing. The first number of this series was given by Miss Margaret Hiller on Saturday, February 23rd, in the Auditorium of the High School Building. The remaining three meetings will be held on Thursday and Friday March 14th and 15th. The topic covered in the discussions and demonstrations will be:

- (a) The meat savers and substitutes to give the underlying principles which show what foods may be used in place of wheat.
- (b) The selection and use of clothing materials.
- (a) What fats and sweets may be used and how. The making of a foundation pattern to be used for cutting and making undergarments, simple dresses and shirt waists.
- (a) The selection of food materials and the planning of meals to meet the body needs.
- (b) The care and repair of clothing.

The place and time of meetings will be announced in Monday's paper.

REMEMBER THE THIRD LIBERTY LOAN

The Third Liberty Loan should be made an overwhelming vote of confidence in our Government. Instead of men indulging in academic protestations for peace, based on the assumption that they are of superior intelligence and alone competent to divine the processes of other men's minds, there should be a grand rally to support the Government. Columns wasted on theory might better be used to rally the people to the support of the Government with their money.

The Third Liberty Loan will be a supreme test of American loyalty. Its instant and complete success will be notice to the Kaiser that his representatives over here—his open champions and his sinuous and deft "peace" agents—have failed. Its failure will encourage the Kaiser and his agents in America will clamor the louder for peace—for a Kaiser's peace—a Russian "peace".

It would be a mighty fine thing if Clearfield County's quota of the Third Liberty Loan is quickly met and subscribed. It is possible that this may be done. There is a whole month for the people to figure out the maximum they can subscribe. There are ways by which the question can be put to every resident of the county. A man, a woman, a boy, or girl, can easily arrange between this time and April 6 for his or her subscription. Business men, professional men, the men in the mills and the mines can figure out their financial responsibility.

The people have confidence in their Government. There are big problems of war statecraft to be solved. There are big men engaged in their solution. But, there is a mighty big practical problem—that of war finance—which the people must solve. In its solution lies loyalty, more than lip loyalty. Its successful solution means notice to every Kaiser, and every Kaiser's man—here and abroad—that Americans are for America.

Remember the Third Liberty Loan.

Would You Help To Win The War?

To win the War the Army and Navy must have ammunition, clothing and food.
You can help to equip the men who are fighting for you by buying United States Thrift Stamps and War Savings Stamps.

War Savings Stamps cost \$4.14 now and on January 1, 1923 will be redeemed with 1 per cent. interest compounded quarterly, amounting to \$5.00 for each stamp.
Thrift Stamps cost twenty-five cents each. Sixteen Thrift Stamps and thirteen cents will buy a War Savings Stamp.

It is not only a patriotic duty but a privilege to buy War Savings Stamps, the safest investment in the world. We shall be glad to give you full information and to sell you your Thrift Stamps and War Savings Stamps.

LACK OF FATS IS GREATEST WAR PROBLEM GERMANY HAS TO SOLVE

This country is greatly in need of more pork, for pork furnishes the animal oil or fat so necessary at this time. To meet this need we must increase production by eliminating all unnecessary loss. Just now, when the sow is farrowing her spring litter, is the time to observe care if all the pigs are to be saved, urges the Pennsylvania State College.

Dry, well-ventilated farrowing pens free from draughts should be provided. The air of a central type house where many hogs are kept may prove poisonous to young pigs unless plenty of fresh air is provided.

Farrowing in colony houses is probably the most healthful when the houses are tightly covered with paper and are provided with a ventilator. On very cold days a lantern suspended from the roof, will take the chill from the atmosphere and may save the lives of some of the small porkers. Do not provide too much bedding for large, fat sows as they are apt to be extremely awkward and too much straw will hinder young pigs in getting out of the way.

For twenty-four hours after farrowing the sow should have nothing but warm water with perhaps a handful of wheat middlings thrown into it. It is not well to excite a heavy milk flow before the pigs are able to utilize the milk, for the sow's udder will become inflamed and sore. If such a condition exists, bathe the udder with hot water and apply lard and turpentine.

Increase the feed gradually until after four or five days the sow is on full feed which may consist of corn seven parts, wheat middlings four parts, and tankage one part—or oil meal one and one-half parts.

These suggestions are made by F. S. Hultz, of the animal husbandry department of the Pennsylvania State College.

OBITUARY

VIOLA VIEHDORFER KOOZER

The Reaper, Death, wounding his ceaseless way toward the great beyond, leaving here and there in his wake saddened homes and broken hearts, seemed to us to be cruel beyond our comprehension when on Sunday March 3rd, 1918 he entered the home of our friend and neighbor Ed. Viehdorfer and took from it their only daughter, Viola Frances, wife of Ashley R. Koozer, who, yet in the springtime of life, made the greatest of all sacrifices that a new life might be brought forth.

Viola Viehdorfer was born in Cooper township on Feb. 14th, 1899 and was therefore 19 years and 17 days of age at the time of her death.

Mrs. Koozer was an exceptionally bright and accomplished young woman having a host of friends, and her sudden departure from this life has cast gloom not only upon the bereaved family but over the entire community. While we bow in humble submission to the will of Him who doeth all things well, yet we may be at times prone to wonder why death's fingers are permitted to pluck a bud not yet full blown. Yet after all it may be but another grim reminder that "in the midst of life we are in death".

Mrs. Koozer is survived by her husband and infant son John Raymond, her parents and grand parents, all of whom have our most profound sympathy.

The funeral took place from St. Francis church Thursday morning, March 7th, Rev. Father M. A. Ryan conducting the services. Interment in Calvary cemetery.

MADE A SERGEANT

W. A. Chase, Jr., who is stationed with the Quartermasters Engineers Reserve Corps "Somewhere in France" was recently promoted to a sergeant. "Tip" had hard work getting into the army, having been turned back two or three times before he finally induced the recruiting officer to accept him. But when he did enroll under Uncle Sam's banner things came his way in a rush. Within ten days of the time he left Clearfield to join the engineering regiment to which he is attached as a plumber, he was busted on board a transport ploughing the waves of the broad Atlantic.

In a letter home he says he is enjoying his experience to the limit, is in perfect health and like all the other American boys over there is anxious to get a crack at the Kaiser and his minions.

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's never any sickness or pain after taking them. Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists.

TRY THESE ON JOHN, HE'LL LIKE THEM BETTER 'N BREAD

America is a good cook, but an extravagant one. She is apt to throw away perfectly good food, she is apt to make a good loaf of bread or lemon pie on one Thursday and a poor one on the next Thursday. When the pie or bread is good she boasts that she never measures anything, when it is bad she boasts not, neither does she apologize; she accepts it as one accepts a rainy day—philosophically.

But America should this day change her habits, boast less and measure more, and make nothing but good bread and good pie.

A good cook is what is known in the artistic and literary world as a good craftsman. And a good craftsman in any art means an intelligent worker who accomplished his aim most exactly with the least effort. An artist must know his proportions before he can correct errors and so, too, our housekeeper must know exactly what she is doing, else on one Thursday she may make a good lemon pie and on the next a poor lemon pie.

If you want to make potato bread rolls "like mother used to make," don't just put in some potato, some flour, a piece of this and that, but make them like mother used to make them.

Potato Bread Rolls

The following proportions will yield one dozen small rolls:

- 3 ounces (about 3-4 cup) mashed potatoes
 - 1-2 cups of sifted flour
 - 1-2 cake of compressed yeast
 - 2 tablespoons of fat
 - 3-4 level tablespoonful of salt
 - 2 tablespoonfuls of lukewarm water
 - 2 tablespoonfuls of sugar
- Boil, peel, and mash the potatoes. Add the salt, the yeast rubbed smooth and mixed with the water, and lastly, two tablespoonfuls of flour. Let this mixture stand at a temperature of about 86 degrees F., until a touch will cause it to fall. Add to this sponge the fat, the sugar, and the remainder of the flour, and, if necessary, enough more flour to make a very stiff dough. Knead thoroughly until a smooth dough, which is no longer sticky, has been formed. Set back to rise again, and when the dough has trebled in volume, knead lightly, form into small balls, and place, not too close together, in greased pans. Allow to rise until double in volume, and bake 20 minutes in a moderately hot oven, (about 400 degrees F.)

Lesson 10.—First Quarter, March 10, 1918.

THE INTERNATIONAL SERIES

Lesson Text, Mark 5:21-43—Memory Verse, John 10:10—Golden Text, Matt. 8:17—Commentary Prepared by Rev. D. M. Stearns.

The two healings of this lesson were, like all others, samples of the kingdom when God shall have set his King upon his holy hill of Zion; when the King of Israel, Jehovah, shall be in the midst of her, and she shall not see evil any more; when a King shall reign in righteousness, and the work of righteousness be peace, quietness and assurance forever (Ps. 2:6; Zeph. 3:15; Isa. 32:1, 17). When he brought Israel out of Egypt he said, "I am the Lord (Jehovah) that healeth thee;" "I will take sickness away from the midst of thee" (Ex. 15:26; 23:25). All those forty years from Egypt to Canaan their raiment waxed not old upon them, neither did their feet swell because of their journeyings and the heat of the desert (Deut. 8:2-4). Notwithstanding all their cruel bondage in Egypt he brought them forth with silver and gold, and there was not one feeble person among their tribes (Ps. 105:37). This is the same Lord Jesus of whom our lesson tells us, who in the days of his humiliation, as God manifest in the flesh, was ever talking of his kingdom, and showing samples of its health and peace and prosperity. The healed ones of our lesson were a little girl, twelve years old, and a woman who had been for twelve years a sufferer. These two twelves interest me very much, as do the many twelves of Scripture, and some day in the glory of his kingdom we shall understand. Meantime I like to remember that when, as the Son of Mary, he was twelve years old, he said, "I must be about my Father's business" (Luke 2:42, 49), so we should ever be about his business, here in his stead, seeking first and always, the coming of his kingdom. The visit to the home of Jairus to heal his little girl was delayed by the woman whose life had been ebbing away for twelve years, so we will first consider her healing. She had been a great sufferer, had spent all that she had, and was nothing bettered, but rather grew worse (vs. 26). Luke says that she had spent all her living upon physicians, and could not be healed by any (Luke 8:43). Truly her case seemed hopeless. Then she heard of Jesus. What a blessed day that was for her; has anyone heard of Jesus through you? How can they believe unless they hear (Rom. 10:14)? As she heard of some of his wonderful works, she believed in him, and said, "If I may touch his clothes, I shall be whole" (vs. 28). So with eager expectancy, in all her weakness, she somehow pressed her way through the crowd, coming nearer and nearer to him till at last she stood behind him and touched the hem of his garment, and instantly she was healed. What no physician could do, and no money could purchase, came to her freely in a moment, from him who is ever this same Jesus. Try to imagine it: twelve years a sufferer, and now a well woman! Oh, how he just loved to do it for her. He knew all about it, he saw it all and felt it all, and now he would do more than she had dreamed of. He would speak to her personally a word of comfort. His disciples were surprised that he should ask, "Who touched my clothes?" for as Peter and the others said: "Master, the multitude throng thee and press thee" (vs. 31; Luke 8:48). But there is a great difference between touching or hearing him as the crowd does, and touching or hearing him for a definite blessing or message to one's own self. As he looked round about, to see the one who had touched him, not that he needed to look, for he knew, but for her sake; she fearing and trembling, fell down before him and told him all the truth (vs. 32, 33). Now hear him: "Daughter, be of good comfort, thy faith hath made thee whole; go in peace" (vs. 34; Luke 8:48). How exceeding abundantly above all she could ask or think! Could there be a happier woman? Could she ever forget that face of loving compassion, or those words? Now we will follow him to the home of Jairus; but before we reach it messengers come saying to Jairus, "Thy daughter is dead. Why troublest thou the master any further?" But before the broken-hearted father had time to regret the delay on the road, as soon as Jesus heard the word, he said to the ruler, "Be not afraid, only believe" (vs. 35, 36). How those five words have comforted me time and again these many years I never can tell. He has spoken them to my heart so often. Among the precious "Fear not" such as Gen. 15:1; Isa. 41:10, 13; Joel 2:21; and many others have been a great comfort, but none more so than Mark 5:36.

Walking by sight and not knowing the power of God, the house was filled with tumult and weeping and wailing, and scorn of him who said, "Why make ye this ado, and weep?" He put them all out, and with just seven present, all told, himself, the father and mother, Peter, James and John and the little girl his words gave life and health, the dear child enjoyed some food, and once more there is a happy home. Life and peace and joy through him wherever he goes.

The Progress is described by its readers as the paper that changes its dress every day.

SHE WANTS TO GO TO U. S. SENATE FOR NEVADA

Miss Anne Martin, vice-chairman of the National Woman's Party, who has figured prominently in suffragette politics for some years, has announced her candidacy for the United States Senate from Nevada. She will be a candidate, she says, for the unexpired term of Senator Francis G. Newlands, who died recently.

A ONE DISH MEAL HITS THE SPOT

One-dish meals will please the whole family. They will please mother because they are easy to prepare, they will please brother because they "fill him up," they will please sister because it will not take so long to do the dishes, they will please father because they go lightly on the pocket book, and they will please the U. S. Food Administration because they are food conservation meals.

Potted Hominy and Beef
Hominy is excellent to use as part of a one-dish dinner, if you have a tin in your stove so that you can cook it for a long time, or if you use a fireless cooker. Heat 1-2 quarts of water to boiling, add 1 teaspoon of salt and 2 cups of hominy which has been soaked overnight. Cook in a double boiler for four hours or in the fireless cooker overnight. This makes 5 cups. This recipe may be increased, and enough cooked in different ways for several meals. Hominy is excellent combined with dried, canned or fresh fish, or meat and vegetable leftovers may be used. Here is one combination.

3 tablespoons fat
2 tablespoons flour
2 cups milk
4 potatoes
2 cups carrots
5 cups cooked hominy
1 teaspoon salt
1-4 pound dried beef
Melt the fat, stir in the flour, add the cold milk and mix well. Cook until it thickens. Cut the potatoes and carrots in dice mix all the materials in a baking dish and bake for one hour.

Shepherd's Pie
1 tablespoon fat
1 onion
1 pound raw meat or left over meat cut up small
2 cups tomato
1-2 teaspoon salt
1-5 teaspoon pepper
4 cups mashed potato
Melt the fat, add the sliced onion, and if raw meat is used, add it and stir until the red color disappears. Add the tomato and seasoning. If cooked meat is used, add it with the tomato and seasoning, after the onion is browned and heat through. Oil a baking dish, put in a layer of the potato, add the meat and gravy, and cover with the potato, dotted with fat. Bake half an hour.

Select a hard head of cabbage, cut away the outside leaves, then soak in salt water to dislodge any insects that may be in the leaves. Drain and put into ice water, then dry between the folds of a cloth being careful not to destroy the shape of the head. Carefully scoop out the center of the head, reserving this portion for soup or salad, fill the cabbage with a stuffing of chopped chicken and beef, or other meat pounded to a pulp, seasoned with salt, pepper, parley, nutmeg, chopped green pepper and bound with the yolks of two eggs. Put the stuffed cabbage in a baking dish, cover with boiling water and bake in the oven until cabbage is done. Serve cut in wedge shaped pieces.

A hard worked phrase "I saw it in The Progress."

LETTERS FROM OUR SOLDIER BOYS

LETTER FROM FRANK BIGGINS

England, Feb. 16, 1918.

Dear Mother:
A few lines to let you know that I am well and hope you are all the same. I suppose you would be worried about me but I did not have time to write.

Well I have seen France and have been close to your old homestead. I have seen lots of things you used to tell me about over here.

We have enough to eat and lots of blankets to keep us warm and they take good care of us, so you do not need to worry about me. You will only hear from me about once a month or maybe longer sometimes.

I was at mass today and after mass we went thru the old abbey. It is some place, and is over 900 years old. I saw some of the houses that father told us about the goats eating the roof off.

The only thing I long for is some good cigarettes and tobacco, because we cannot smoke the stuff we get here.

I was a little seasick coming over. You know what that is like. But I had a nice trip only it was a long one. I only want one more like it, and that is coming back.

Well I guess I will close. With love to all

From your son,
PVT FRANK BIGGINS.

SAYS WE BECOME CRANKS ON HOT WATER DRINKING

Hopes every man and woman adopts this splendid morning habit

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, mucky complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their bowels at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone its cleansing, sweetening and freshening effect upon the system.

If you don't read every page of the Progress you are bound to miss something interesting.

WOMAN ASKS DIVORCE AS HUSBY PRO-GERMAN

(By United Press)

Astoria, Ore., March 8.—Pro-Germanism is now listed as grounds for divorce.

Alleging that her husband married her through fraud by telling her he had taken out first citizenship papers, and that since then, he has switched his views and roots for the Kaiser to win the tussle, Ann Appelhagen today has a divorce suit on file against Otto Appelhagen, a native of Germany. Since the wedding, she alleges, Appelhagen boasts he will never become an American, and has been paying too much attention to movements along the waterfront.

RUB RHEUMATISM
PAIN RIGHT OUT

Instant relief from nerve torture and
misery with old "St. Jacobs
Liniment"

Get a small trial bottle:
Rub this soothing, penetrating lin-
iment right into the sore, inflamed
nerves, and like magic—neuralgia
disappears. "St. Jacobs Liniment"
conquers pain. It is a harmless neu-
ralgia relief which doesn't burn or
discolor the skin.
Don't Suffer! It's so needless. Get
a small trial bottle from any drug
store and gently rub the "aching
nerves" and in just a moment you
will be absolutely free from pain,
ache and suffering, but what will
you more is, that the misery will not
come back.
No difference whether your pain or
neuralgia misery is in the face, head
or any part of the body, you get in-
stant relief and without injury.

PERSHING'S NEWEST
MOVE IS PUZZLING
TO VON HINDENBERG

By J. W. T. Mason

Written for the United Press
New York, March 9.—Still greater
confusion at German headquarters
concerning the main disposition of
Gen. Pershing's forces will result
from the statement that Americans
have taken over a new section of the
Lorraine front.

The principal meaning of the an-
nouncement is that General Pershing
has changed the direction of his troop
movements. From the time the Ger-
mans first discovered American troops
in the trenches near the Rhine-Marne
canal, every successive revelation of
the American positions has been to-
ward the west.

The first discovery of the stars and
stripes by the Germans was almost at
the extreme western point of the
French front, where it joins the Brit-
ish.

Now, however, General Pershing
jumped back to the eastern end of the
line in Lorraine. Von Hindenburg's
uncertainty as to the point of the
forthcoming American offensive is, for
the present, hopelessly entangled by
this policy of dodging about. From
Chavignon, the westernmost point
known to have been occupied by
American troops, to Lorraine, is over
100 miles. There are at least ten
possible areas along that line where
the American offensive might be con-
centrated. It is Von Hindenburg's
turn to guess.

Germany's enforcement of a con-
queror's peace upon Rumania shows
that the German militarists are trying
to make not only Rumania, but also
Bulgaria, subservient to German con-
trol. There are strong indications
that Bulgaria is not to receive from
Rumania that part of Bulgarian ter-
ritory seized by the Rumanians dur-
ing the last Balkan war.

The district will probably be made
over to Germany instead of Bulgaria.
Thus, if the Bulgars eventually re-
ceive the Dobruja, they will have the
gift from Germany. By this shrewd
trick the Germans hope to bind Bul-
garia still closer to them, for the
furtherance of their Mitteleuropa
policy.

Likely as not Jess Willard will be
easily to fight just about the time the
census season opens. Then he will be
too busy to train.

EditorialsWATCHING:
PLANNING:

The store that would serve your interests
best is the one that can keep abreast of con-
ditions day in—day out.

It must keep its finger on the market's
pulse. Its vigilance must not lax for a single
day: for the result of increased prices is ir-
revocable.

This planning and building of the pres-
ent, for the future, is not mere talk—it is
alive and working here ALL THE TIME.

And you can see it—any day you enter
our store.

PAIGE

The Most Beautiful Car
in America

MOTOR CARS this year will be—and should be—bought carefully, intelligently—as a
well considered investment. Never have motor cars been more widely and genuinely
needed. And never have they been selected with such discrimination and understanding of their
real worth and character.

Every man must "wake up and speed up," if the war is to be won. This is the economic hour
of the motor car. It must serve as a utility. Therefore it will be bought as a utility—
selected for its sound mechanical excellence, its reputation for good service and economical
maintenance and for the name of the Company that builds and sells it.

It is in that spirit, to serve that end that the Paige Essex "Six-55" is being bought, not merely by
patriotic Americans, but by the efficient and discriminating Americans who recognize in this
car the best value, the best service and the best ally of their own efficiency.
